DETAILED ACTION

Election/Restrictions

1. Applicant's election of group I in the reply filed on February 4, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Akahane et al (5135694).

Akahane et al disclose a metal insert 11 contained in die molds 22,23 wherein a bent portion 26,261 (i.e. a 45 degree angle) is formed in the resin supply inlet port. Refer to figures 8 and 9 along with column 4, line 44 through column 5, line 49. It also appears from the figures that the 45 degree sloped portion 26,261 is thinner than the section to the right thereof per instant claim 2.
